We know that studying God's Word is essential for spiritual growth and wisdom. Yet aside from an occasional psalm or proverb, the Old Testament is generally not considered a must-read. Filled with ancient cultures and strange laws, the books can feel irrelevant to daily living. But the first half of the Bible is more than a collection of Sunday school stories.

The Old Testament chronicles God's relentless pursuit of His children and lays the foundation for a new covenant through Christ. It is nothing less than the foundation of our faith. Left of Matthew offers a fresh perspective for studying the Bible. This nine-week course explores key Old Testament themes—such as creation, sin, and the law—and connects them with New Testament truths. You'll discover the divine thread running through Scripture and see the Bible as one complete picture of God's love. So don't just get half the story. Experience the Old Testament unlike ever before.

Since the church began, the New Testament has been essential reading for believers. Filled with Christ's timeless words and the apostle's foundational truths, its wisdom continues to be relevant for everyday life. Yet these books did not emerge in a spiritual vacuum. The New Testament chronicles the fulfillment of ancient promises and prophecies through God's new covenant. It is the final chapter in a story that began long before the birth of Christ.

*Right of Malachi* offers a new perspective for studying the Bible. This nine-week course connects key New Testament themes with their origins in the Old Testament. You'll discover the eternal thread running throughout Scripture and view the Bible as one complete picture of God's love. So don't just get half the story. Experience the New Testament unlike ever before.
